1. Tap on the three white bars to return to main menu
   Then tap ASSETS to reset the application
   Then return to Step 1 to add assets with a new location
   OR
2. You can minimize the app and swipe up to exit
What Happens When you Lose Wi-Fi?(IPad)

When Wi-Fi Connection is lost you will receive the following screen. When the connection is re-established your progress will resume exactly where you left off. No data will be lost.

If Wi-Fi signal is lost during the updating of an individual asset you will get a spinning wheel when you go the press the red check box. Once the Signal is re-established the record will be updated but the asset will need to be re-scanned to be included in the group scan process.

Notice: Asset is no longer in group scan
What Happens When you Lose Wi-Fi? (IPhone w/Cellular)

When Wi-Fi Connection is lost you will receive the following screen and an error message saying a data connection has been lost. At this point the app will continue using cellular data if enabled until a Wi-Fi signal is re-established. Your progress will resume exactly where you left off. No data will be lost.
