Step 9: Tap on the check mark

Step 10: Tap on Apply Group Actions

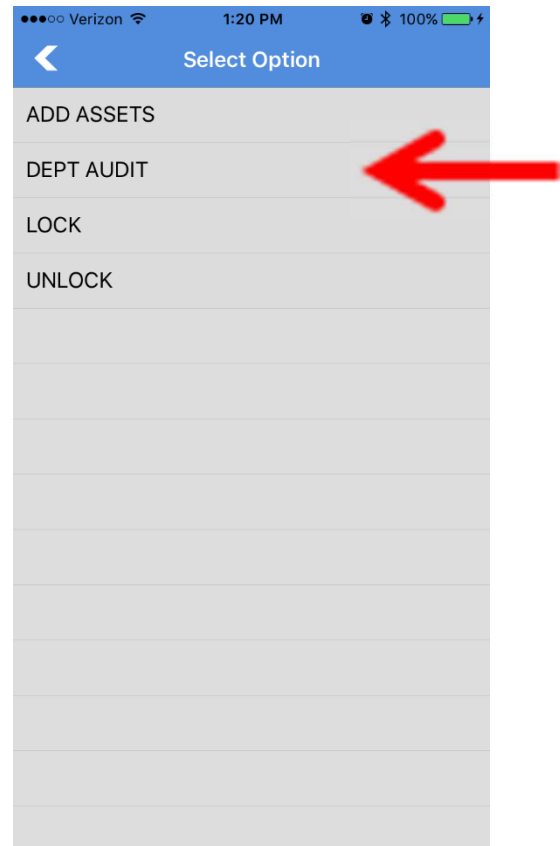

Cycling Controllable Property (Apple)

Step 11: Tap on the Settings Wheel

Step 12: Tap on DEPT AUDIT

Cycling Controllable Property (Apple)

Step 13: Fill out all required fields marked with a *
Then tap on the check mark.

A screenshot of a mobile application interface titled "Group Actions" with a sub-header "Dept Audit". The form contains several fields: "Date of Service *" with the value "08/08/2017"; "Surplus Equipment" with a toggle switch; "Contact *" with the email "Dan.brierley@uconn.edu"; "Phone *" with the number "4860939"; "Building Code *" with the value "0172"; "Room *" with the value "217"; "Data Certification" with a toggle switch; and "Dept Delivered" with a toggle switch. At the bottom, a grey bar shows "Userstamp" as "dan.brierley@uconn.edu".

Step 14: Your changes will be saved. You should see
A red "Group action created" pop up on the screen
And then disappear. You are now finished

A screenshot of the same "Group Actions" form as above. A dark grey dialog box with a loading spinner and the text "Save Saving changes..." is overlaid on the form. At the bottom of the form, a red pop-up message reads "Group action created!". The "Userstamp" bar at the bottom still shows "dan.brierley@uconn.edu".

Cycling Controllable Property (Apple)

Step 15: After creating the “Group Action” you can either:

1. Tap on the three white bars to return to main menu
Then tap ASSETS to reset the application
Then return to Step 1 to scan assets with a new location
OR
2. You can minimize the app and swipe up to exit.

What Happens When you Lose Wi-Fi ?(IPad)

When Wi-Fi Connection is lost you will receive the following screen. When the connection is re-established your progress will resume exactly where you left off. No data will be lost.

If Wi-Fi signal is lost during the updating of an individual asset you will get a spinning wheel when you go the press the red check box. Once the Signal is re-established the record will be updated but the asset will need to be re-scanned to be included in the group scan process.

What Happens When you Lose Wi-Fi? (iPhone w/Cellular)

When Wi-Fi Connection is lost you will receive the following screen and an error message saying a data connection has been lost. At this point the app will continue using cellular data if enabled until a Wi-Fi signal is re-established. Your progress will resume exactly where you left off. No data will be lost.
