Cycling Controllable Property (Apple)

Step 13: After creating the “Group Action” you can either:

1. Start a new group scan by tapping on Scan new items
   OR
2. You can minimize the app and swipe up to exit.

Shortly after completing a Group Scan you will receive an email from Asset Panda indicating the equipment you have updated.

The attached file has the list of equipment you updated today in Asset Panda.

The Dept Audit action was performed on 08/18/2019 by Daniel Brierley <dan.brierley@uconn.edu>

Your report was generated.

**What Happens When you Lose Wi-Fi ?** *(iPad)*

When Wi-Fi Connection is lost you will receive the following screen. When the connection is re-established your progress will resume exactly where you left off. No data will be lost.

If Wi-Fi signal is lost during the updating of an individual asset you will get a spinning wheel when you go the press the red check box. Once the Signal is re-established the record will be updated but the asset will need to be re-scanned to be included in the group scan process.

Notice: Asset is no longer in group scan
What Happens When you Lose Wi-Fi? (iPhone w/Cellular)

When Wi-Fi Connection is lost you will receive the following screen and an error message saying a data connection has been lost. At this point the app will continue using cellular data if enabled until a Wi-Fi signal is re-established. Your progress will resume exactly where you left off. No data will be lost.
